---

### \* Chanting

We have found that group chanting and Zoom do not go well together. We will mute your individual feeds on Zoom and you can chant individually at home. You will hear *Nick* lead the chanting.

We encourage you to maintain Noble Silence during the Day of Practice. However, participating in a day of practice whilst in our home environment may present a challenge to many, especially if sharing the space with others. Do your best to make it a quiet and special day with the support of those you might be sharing your accommodation with.
